QWO: Standing Out

The new Alpha Quiet-Wide-Optics stands out from all automated spotlights. Lightweight and compact build, the QWO features a newest eco-friendly 800W light source and an impressive 7.6° to 55° zoom (x7 ratio) with uniform beam distribution at all angles.

Sharp and bright images are projected with the help of the unique Stay-Sharp-Zoom function. The Dyna-Cue-Creator is an electronic tool helping programmer to combine artistically its innumerable graphic and color effects.

Alpha Spot QWO 800: facts speak louder than words!
