

ULTIMO SKYBEAM

POWER THAT CUTS THROUGH THE SKY

- **Light Source:**
420W short-arc lamp
- **Output:**
>14,000 lm
- **Aperture:**
1.3° beam angle with focus lens
- **Shield Family:**
Moving head fixture suitable for outdoors (IP66)
- **CloudIO Ready:**
Fully compatible with CloudIO

Ultimo Skybeam is a high-performance **short-arc lamp IP66 beam moving head** built to meet the standards of the most demanding lighting professionals. Its powerful, ultra-sharp beam delivers stunning aerial effects with pinpoint accuracy, cutting through the night sky to create unforgettable moments. Crafted for reliability in any environment, Ultimo Skybeam features a **robust, weather-resistant body** that's perfectly suited for **outdoor productions, touring, and large-scale installations**. Ultimo Skybeam ensures your show leaves a lasting impression long after the final curtain.

Ultimo Skybeam delivers exceptional long-throw performance, thanks to its precise **1.3° aperture** and **large 200mm (7.8 in) front lens**. Engineered for maximum impact, it delivers crisp, high intensity columns of light that cut effortlessly through haze, fog, and smoke and remain visible at extreme distances. At the heart of the fixture is a **powerful 420W short-arc High-Intensity Discharge (HID) lamp**, combined with an advanced internal focus system. This high-efficiency optical engine creates

a tightly defined beam that delivers the iconic sky-tracking look, but with lower power consumption and operating costs.

Equipped with **CMY + CTO color mixing, two rotating prisms, one static gobo wheel, 5° frost filter, motorized zoom and focus, and strobe/shutter effects**, Ultimo Skybeam offers an exceptional range of creative possibilities, from

immersive atmospheres to jaw-dropping aerial projections. It delivers **deeper, more vibrant colors** than laser systems, while integrating effortlessly into any production setup, from concert stages to large-scale outdoor events. With Ultimo Skybeam, you gain uncompromising creative control and the versatility to shape every moment with precision and power.

That's one **small** fixture
for the stage,
one **giant** beam for
your show.

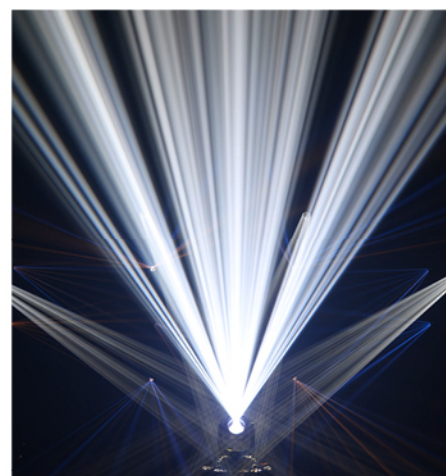

ULTIMO SKYBEAM

Ultimo Skybeam is built to withstand the elements. With its **IP66 rating**, this fixture is **fully sealed against water and dust**, making it a reliable choice for outdoor festivals, architectural installations, and demanding indoor environments alike. Its rugged design is enhanced by **SunSafe Protection**, a proprietary system that automatically repositions the head to shield internal optics from direct sunlight. The **Advanced Electronic Brake System** ensures stable, precise positioning even in challenging conditions, while **Absolute Position** sensors guarantee consistent real-time accuracy with no drift.

With a lamp life of **up to 4,000 hours**, reduced mercury content, and lower

power consumption, it's engineered for long-term reliability and environmental responsibility. Weighing **34 kg (75 lbs)**, its road-ready design lowers transport and rigging costs without compromising the rugged durability required for professional use. This smart balance of performance, sustainability, and practicality makes Ultimo Skybeam **a smart choice for any production environment**.

We know that efficiency on site is crucial. The Ultimo Skybeam features **built-in wireless DMX**, allowing you to control the fixture without the hassle of running extensive DMX cables. This translates to faster setup times, cleaner stage designs, and fewer potential cable-related issues.

Ultimo Skybeam offers **outstanding output, advanced features, and proven reliability** at a cost structure that aligns with the needs of rental companies and large-scale productions. As the newest member of the Ultimo family, it shares the same design language and performance standards, ensuring effortless integration into existing rigs.

Designed as a complete lighting solution, Ultimo Skybeam delivers **exceptional value** by combining **high-impact performance, a comprehensive feature set, and dependable operation**. It's a smart investment for professionals seeking both creative power and long-term cost efficiency.

ULTIMO SKYBEAM

MAIN FEATURES

- Light source: 420W short-arc lamp with 4,000 hrs life span
- Output: >14,000 lm (in integrating sphere)
- 200-millimeter (7.8 in) diameter front lens
- Aperture: 1.3° beam angle with focus lens
- Color Temperature: 6250K
- CRI: 82
- CMY color mixing wheel
- CTO wheel
- 15 fixed colors
- Static gobo wheel with 13 fixed gobos + 6 beam reducers
- 18-facet rotating prism and 1 24-facet rotating prism
- 5° linear soft edge frost filter
- Mechanical shutter
- Absolute Position for precise re-positioning and refocusing
- Sun Safe Protection
- Advanced Electronic Brake System
- Control protocols: DMX, Art-Net, RDM, sACN, built-in Wireless DMX
- Personalities: one mode with 25 control channels
- CloudIO Ready
- Operating voltage: 100-240V, 50/60 Hz
- Max power consumption: 700W
- Weight: 34 kg (75 lbs)
- Size (LxWxH): 473 x 320 x 688 mm (18.6 x 12.6 x 27 in)
